Reinvest your own money sooner

Experts in R&D Finance

The standard Australian Tax Office (ATO) R&D refund can leave you waiting up to 18 months to access your own money. A Radium Advance is a simple solution that can advance your R&D tax refund, reducing the need to raise dilutionary capital and smoothing cash flow. If your business is eligible for the government's R&D tax refund you can apply for a Radium Advance.

“We needed a capital injection that wasn't risky or dilutionary and the whole process - from start to finish - was surprisingly quick and easy.”

- James Graham, Executive Director Marketing & Business Development, Recce Pharmaceuticals

Using our quick and easy platform you could access and reinvest up to 80% of your refund sooner. Approvals take two business days and funds are transferred three business days after you sign the loan documents. Secured against your company's ATO refund, a Radium Advance has no upfront costs and nothing to pay until the full ATO refund arrives.

At Radium Capital, financing R&D tax advances is all we do. We're experts in helping businesses reinvest their own money sooner.

Our platform-based approach enables us to deliver confident service and outstanding results using technology that reduces costs and makes time for people.

We see security differently. We don't think like a bank, so we can lend to more businesses and help them grow and thrive.

Just because your business has R&D doesn't mean you should have to risk everything for capital. The only security businesses typically need to apply for a Radium Advance is the ATO refund. This means you hold onto more of the equity you're working so hard to create.

Smart capital for your smart business

Grow your business the strategic way

R&D tax refund advances have the potential to offer excellent tactical and strategic potential for many businesses with an active R&D program. This is where Radium Capital can help because businesses eligible for R&D tax refunds can apply for Radium Advances and improve their cash flow and capital position.

We are Australia's market leader in advances for the Federal Government R&D Tax Incentive refund.

Radium Advances can be a clever part of your capital and cash flow mix and enable your business access your R&D refund throughout the year.

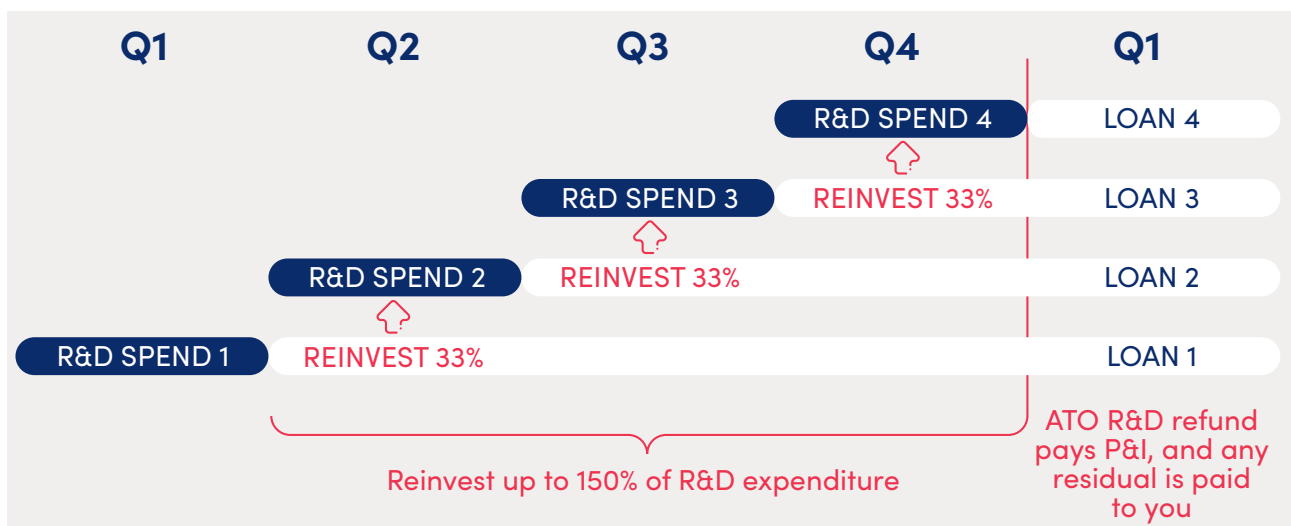

Making your R&D work harder

A Radium Advance can be an individual burst of cash flow, but it works best when you use it strategically under our Radium Quarterly Advance model.

The more you use Radium Advances, the more your R&D benefits. If you advance your tax refund four times a year and reinvest in R&D it triggers additional refunds from the ATO. So, Radium Quarterly Advances make R&D dollars go further than annual advances. By choosing quarterly advances, you can either spend up to 50% more on R&D using the same expenditure, or reduce your capital outlay by up to 33%.

The Radium Quarterly Advance model allows up to 150% of R&D expenditure to be reinvested back into R&D.

The Radium Quarterly Advance model allows up to 150% reinvestment in R&D expenditure. This means you can either increase R&D expenditure by up to 50% or reduce R&D capital outlay by over 30%.
